sensors

Sensors used in well CWL D3 (unsaturated zone):
pressure transducer, chemiresistor, humidity sensor,
T-type thermocouple (not shown)

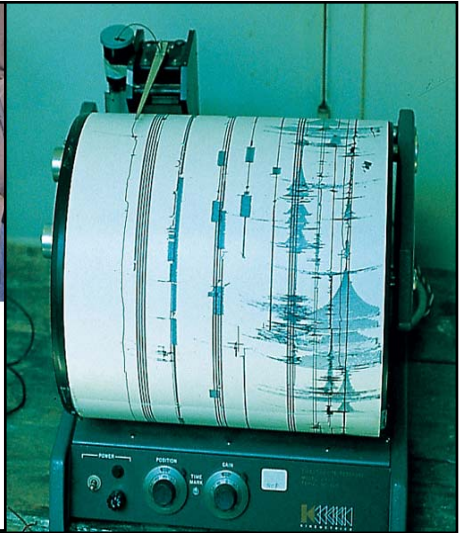

Deploying the sensors in well CWL D3 (CWL in background)

Sensors used in well CWL MW2BL (saturated zone):
chemiresistor (top),
submersible pressure transducer, T-type thermocouple (not shown)

Deploying sensors in well CWL MW2BL (~150 m or 500 ft to the water table)

stereoscopic
